k. Description of Request: The licensee requests a temporary variance to reduce minimum flows required by article 105 of the project's license. The licensee states that water conditions in the North Fork of the Middle Fork Tule River are critically dry, and requests that it be allowed to reduce the minimum flow release from Tule Diversion Dam and Doyle Springs Diversion Dam from 4 and 2 cubic feet per second (cfs), respectively, to 1 cfs. The purpose of this flow reduction is to maintain the integrity of, and prevent permanent damage to, the project's 1,021-foot-long redwood penstock by maintain a 2 cfs flow through the penstock. Due to the urgent nature of this request and to prevent permanent damage to the project's the Commission approved the licensee's request with conditions by order dated August 1, 2014. The approved temporary variance expires no later than 6 months from the date of the order. However, should the licensee request another temporary variance due to continued drought conditions once the current variance expires, the Commission will take into account any comments received, intervention requests, and protests received in its analysis of any future variance request.
